We enjoyed sharing our ‘Books In Homes’ books with each other. We started reading them straight after the assembly!

We have been spending time with our buddies in KP. We enjoy listening to them read and we read to them.
We met published author Deborah Abela and learnt some great narrative writing techniques from her that we used to write our own narratives.

During our Mathlympics, we had the opportunity to participate in a variety of maths activities. In these photos we are making pictures using Tangrams.
